- Other

**AUTHORSHIP AND CONTRIBUTORS**

- All authors have signed the required Statement of Authorship (applies to all submissions, including editorials, letters to the editors, and replies).
- All authors fulfill all criteria for authorship.
- Nonbylined contributors, including participants in collaborative trials, have been recognized separately under Acknowledgment(s).
ACKNOWLEDGMENT(S)
☐ Only persons who have made substantive contributions are named, including science writers.
☐ Participants in a collaborative trial and those who assisted only with data collection or manuscript preparation are listed.
☐ For each individual acknowledged, his or her place of employment, any funding source(s), and a compensation disclosure statement have been included.
☐ All named individuals have consented to being listed under Acknowledgments.

CONFLICT OF INTEREST
This applies to all submissions, including guest editorials, letters to the editors, and replies.
☐ A disclosure statement of any potential conflict of interest for each author appears on the title page. If no such conflict exists, the following statement has been included: “The authors report [or The author reports] no conflict of interest.”
☐ The cover letter accompanying the submitted manuscript addresses all potential conflicts of interest for each author.

PREVIOUS OR INTENDED PUBLICATION
☐ The submission includes a reprint and/or current copy of every article that the author(s) has/have previously published, submitted for possible publication, or presented in any manuscript form that discusses the same patients, animals, laboratory experiment, or data, in part or in full, as those reported in the submitted manuscript.

PERMISSIONS
☐ Signed written permission from both the original author and the copyright holder for the use of any previously published tables, figures, or quotations and complete references for the cited material are included with the manuscript.
☐ Signed written permission for the use of any quotations from personal communications or unpublished data from the person(s) quoted is included with the submitted manuscript.

COVER LETTER
☐ The cover letter must include all required information, including authorship, conflict of interest statement, any previous publication, and IRB approval, as described in this document and the Information for Authors. Authors must attest to having obtained written patient consent, as appropriate.

REVIEWERS
☐ The names, addresses, and e-mail addresses of at least 3 suggested reviewers are included. Required for all submission types except letters to the editor.

FORMAT
☐ All elements of the manuscript are in American English, double-spaced, with a font size no smaller than 12 and 1-inch margins at the top, bottom, and sides of each page.
☐ All pages are numbered consecutively, with material presented in the following order: title page(s), condensation, short version of title, abstract, key words, body of text, acknowledgment(s), references, tables, and figure legends. The figures themselves are supplied in separate files (see Information for Authors).
☐ The word count of both the abstract and main text (excluding references) appears on the title page and below:

Abstract ________ Main text ________

FIRST PAGE: TITLE AND MISCELLANEOUS ITEMS
These elements appear in the following sequence:
☐ Title, no more than approximately 12 words, does not include conclusion statements or abbreviations and is concise and suitable for indexing.
☐ Names of all authors and their highest academic degree(s), with surnames in capital letters: eg, George L. SMYTHe, MD. Names of any authors not called “Dr” have been identified as “Ms” or “Mr.”
☐ City or cities, state(s), and non-US country or countries (with province, for Canada and Australia) in which the study was conducted.
☐ Name(s) of the institution(s), section(s), division(s), and department(s) in/by which the study was performed and the institutional affiliation(s) of the author(s) at the time of the study (any who have since moved elsewhere should indicate this).
☐ DISCLOSURE statement of any potential conflict(s) of interest for each author. If no conflict exists, state: “The authors report [or The author reports] no conflict of interest.”
☐ Disclaimer, when appropriate, such as for members of the Armed Forces and employees of the federal government.
☐ If the findings have been presented at a meeting or conference, name of the host organization/association and other required information (see Information for Authors).
